

PHYSICIANS ACROSS CONTINENTS

Assalamu Alaykum

Dear Parent/Carers,

We, Physicians Across Continents, have teamed up with your child's school for our campaign 'Little Life Saver'. This campaign will give your child the opportunity to get involved by raising much needed funds so we can provide medical care to some of the poorest people around the world, free of charge.

Physicians Across Continents is a medical charity. Our values are inspired by "whoever saves a life, it is as if they have saved all humanity". Our aim is to assist in the provision of emergency healthcare, specialist equipment, medical facilities and the training and development of locals and medical staff. To date we have performed over 150,000 surgeries and helped over one million people in over 40 countries. Information of our projects can be found on the website www.physiciansac.org

Your child has participated in a school assembly explaining what we do and how they can help. They have also been given a money box to take home. We hope you will assist them to raise as much as they can, as every penny counts. You can help your child by giving them fund raising ideas and helping them put them in to practice. Some fund-raising ideas could be a tea party, a charity walk, selling unwanted items, learn a surah, surah competition etc.

It is very important that the boxes are returned to school by Friday 6th March 2020 no matter what has been collected.

We will reward the top 3 children who raise the most amount of funds with some amazing prizes as well as a 'Little Life Saver' medal. Every child that participates will receive a certificate. Prizes will also be given to the top classes from Reception, KS1 and KS2 that raise the most.

Together we can make a real change, if you would like to find out more information or volunteer with us please visit the website www.physiciansac.org or send us a email at info@physiciansac.org

Thank you for your support and we look forward to working with you.
