

Resources

What are resources?
Use the pictures as clues!

Wednesday 15th September 2020

LO: To think about how people use things from the earth and what problems this can cause.

Success criteria:

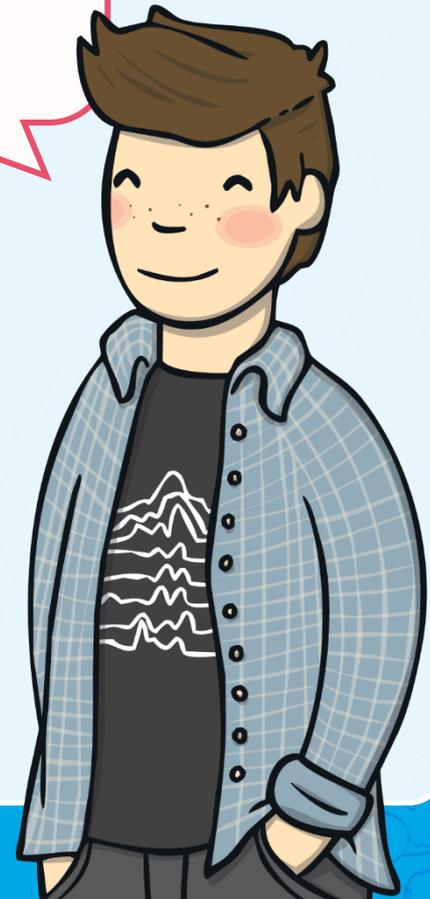

- I can explain what natural resources are.
- I can match an image of a natural resource to a description of how it is used.
- I can think about how harming the environment makes me feel.

The Big Questions

How do people use things from the earth?

What problems can this cause?

What are natural resources?

<https://www.bbc.co.uk/bitesize/topics/zshp34j/articles/z62qy9q>

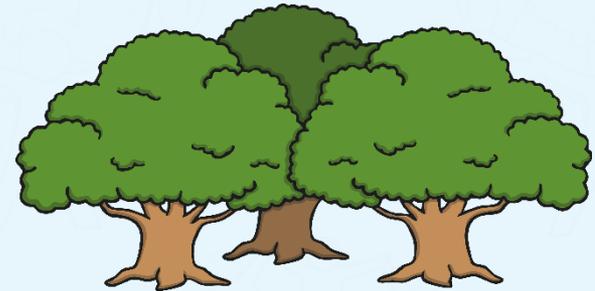

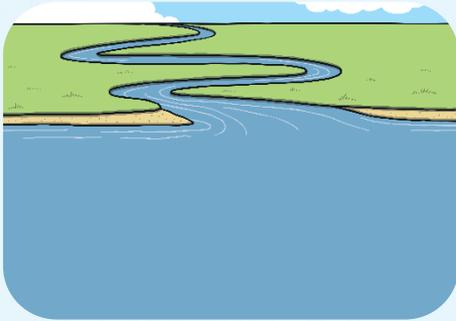

Our Earth

Our earth is full of amazing, natural resources.

Natural means something that has not been made by people, but by nature and resources are substances or objects.

Here are some pictures of natural resources made by our wonderful earth.

How many more can you think of?

Talk about your ideas with a partner and then share your thoughts with the class.

Using the Earth's Resources

People use the earth's natural resources in lots of ways.
We use them to help us live and enjoy our lives.

Have a look at these images. These are some ways in which people use the earth's natural resources.

Wood from trees
for buildings.

Water to play on
and in.

Coal from the ground to
make fire.

This is very important and also exciting!

Using the Earth's Resources

Let's investigate this a little bit more!

With a partner, play the Using the Earth's Resources Matching Game.

Work together
to match each
picture of a
natural resource
to the way it is
used by people.

Good luck!

Using the Earth's Resources

This is used for making electricity and drying washing. It is also used for flying kites.

This is used for heating homes and making light. It is also used to make engines work.

This is used for drinking and washing. It is also used for swimming in and sailing on.

This is used for building houses and furniture. It is also used for making paper and fire.

This resource is fully in line with the Learning Outcomes and Core Themes outlined in the PSHE Association [Programme of Study](#).

Consolidating

Reflecting

Main task:

How It Is Used

People use the earth's natural resources in lots of ways. We use them to help us live and enjoy our lives.

Choose a natural resource and draw it.
Then explain how people use this natural resource by writing some sentences underneath the picture.

Use the words below to help you if you would like.

Word Bank

use

make

live

help

fun

How It Is Used

People use the earth's natural resources in lots of ways. We use them to help us live and enjoy our lives.

Draw a picture of one of the earth's natural resources here.

How is the natural resource you have drawn used by people?

This resource is fully in line with the Learning Outcomes and Core Themes outlined in the PSHE Association Curriculum of Study.

Taking Care of the Earth's Resources

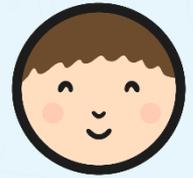

People use the earth's natural resources in lots of ways. We use them to help us live and enjoy our lives.

However, people can harm the environment by over using the earth's natural resources or by using them in the wrong way.

Here are some ways in which this can happen.

Environments Around the World

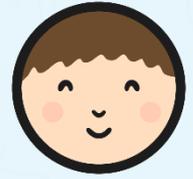

Cutting down too many trees and destroying animal homes.

How do these images make you feel?
Take a moment of quiet to think about this.

"Deforestation" by [crustmania](#) licensed under [CC BY 2.0](#)

Environments Around the World

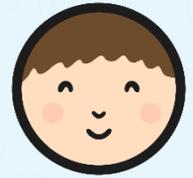

Polluting water with rubbish, harming animals and people.

How do these images make you feel?
Take a moment of quiet to think about this.

"Trash From Flooding" by U.S. Geological Survey licensed under [CC BY 2.0](https://creativecommons.org/licenses/by/2.0/)

Environments Around the World

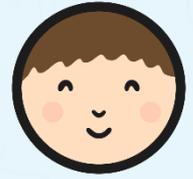

Burning too much fuel and making the air unhealthy to breathe.

**How do these images make you feel?
Take a moment of quiet to think about this.**

Taking Care of the Earth's Resources

If you feel happy to do so, share your thoughts and feelings with the class.

Although people can harm the earth, they can also help it.

People can do a lot of things to look after our amazing earth and its natural resources.

Let's all do as much as we can to look after our world.

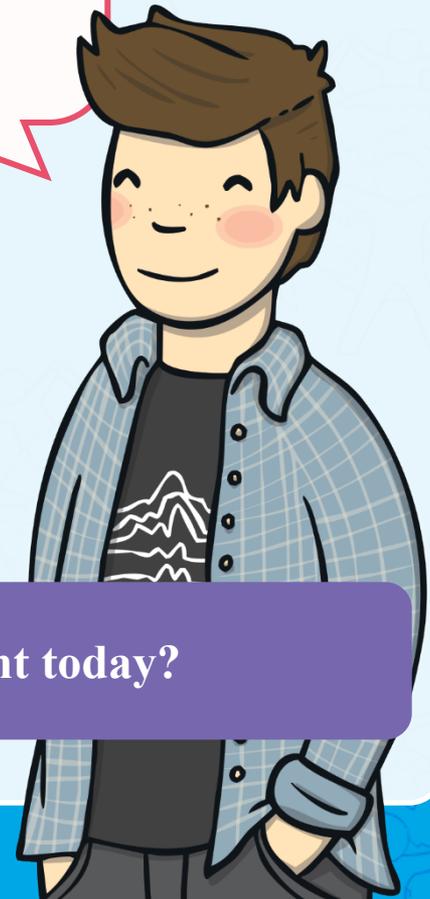

The Big Questions

How do people use things from the earth?

What problems can this cause?

What is the most interesting thing you have learnt today?

Quiz time!

What are natural resources?

Where did natural resources come from?

What would life be like without or a lack of natural resources?
